DISTRIBUTOR NOTICE

Subject: Cable increase effective Wednesday, February 27th.

Copper has continued to rise since our last increase. This steady upswing is coupled with increases in aluminum, steel, zinc and freight. This necessitates the need to initiate another increase to be effective close of business Tuesday, February 26th.

For specific details, please contact your local agent.

Please also be aware that we will be monitoring order intake and will not accept orders larger than your typical one week buying volume pattern.

For your convenience, this letter will be available on our website www.kaf-tech.com under the NEWS tab.

Very truly yours,

Richard Salvadore
